employees

All Performances from Evergreen Variety Mixed by Jamie Blake

#### The Evergreen Student Music Project

The Evergreen Student Music Project is an annual endeavor that brings together a large group of Evergreen students, faculty, staff, alumni and surrounding community members with one goal in mind: to make a great record.

All songs for the 2012 record were produced by the Advanced Audio Recording and Production class.

This year's flash drives each come with a full copy of the album in WAV and AAC format, photos from the studio and recording process, and video excerpts of performances from Evergreen Variety. This collection of student work provides a glimpse into the boundless and diverse talent of the students at The Evergreen State College between September 2011 and June 2012.
