Welcome to The Evergreen State College Student CD Project 2003, Volume 16.

Over the years this project has given many student artists and producers a chance to experience the process of creating an album of student work. As always, all material on this project has been written, recorded, and produced by students. By reading through the credits you will quickly see the collaborative nature of this project and how difficult it is to give an individual a title like "artist" or "engineer". So many students have acted as both. At Evergreen we are encouraged to try unconventional techniques in our recordings/compositions in order to expand these roles in the studio. We are pushed to be daring with our projects and are taught, above all else, that standard practices don't always spawn the best results. Thanks for reading and hope you enjoy the TESC Student CD Project 2003.

Executive Producers: Tom McCullough, Steven Bengé, and Lucas Carlyle

Mastered by Tom McCullough, Steven Bengé, and Lucas Carlyle at The Randlette Mastering House.

Thanks to the Multitrack Composition class, Media Loan, the COM building staff, Jacinta McKoy, the lab aides, The Student Activities Board, and Cravedog CD Manufacturing.

Extra special thanks to Peter Randlette for overseeing the project and making it run smoothly.

Super special thanks to Joe Pavey for going beyond the call of duty to make the enhanced cd possible.

Evergreen students have created everything you see and hear on this CD.
